ABOUT ME

I am a 19-year-old self-motivated and responsible young professional, reliable and hard-working. My core expertise is in group leadership and working with children, and I have a lot of experience in both. In my roles at LePy I have worked with groups with a lot of challenging behaviour, and I have learned to do well with even the most demanding groups.

Alongside working with people, I have a strong technical background. I code and develop software in my free time, won the Hackabi4 penetration testing competition in spring 2026, and have years of experience as a lighting and sound technician programming show control systems. I learn new tools quickly and enjoy solving technical problems. Working in a primary school, including as a substitute class teacher and special education teacher, has also given me experience in supporting both pupils and teachers.

EDUCATION

Matriculation Examination

Otaniemi Upper Sec.

2025

Basic Education, Math & Science

Olari School

2022

ROK Youth Leader Training

Olari Parish

2022

TEA13 — Technician Training

Otaniemi Upper Sec.

2022–25

WORK EXPERIENCE

Coach, WU12–WU13

2026–

Leppävaaran Pyrintö ry

- Second professional coach in an exceptionally large group of over 50 players.
- Responsible for game-time management of the 3D teams in both age groups and for strength and conditioning for the whole squad.
- Take part in leading a five-person coaching team and in developing training as a whole.
- Recognised for my attitude and my ability to lift team spirit.

Head Coach, WU14 3D

2026

Leppävaaran Pyrintö ry

- Head coach of the LePy WU14 3D team, responsible for practice planning, game days and individual player development.
- Built the team's game tactics and players' self-direction, using a structured, analytical approach to tracking progress.

Winner, Hackabi4 penetration testing competition

SPRING 2026

Penetration testing competition

- Won Hackabi4, a penetration testing competition, by finding and exploiting security vulnerabilities in the Abitti2 exam system.
- Exposed a critical flaw that allowed LLMs to be used during exams, as well as a flaw that allowed exam answers to be pulled directly from the exam host server.
- Applied systematic problem-solving, scripting and knowledge of information security under time pressure.

Special Education & Class Teacher (substitute)

SPRING 2026

Kilo School

- Substitute class teacher and special education teacher at Kilo primary school, independently running lessons and supervising pupils through the school day.
- In the special education class I learned how to work with pupils with different support needs, and how a calm, clear approach helps them focus and succeed.
- Praised for my ability to manage challenging groups, even as a new adult to the pupils.

WORK EXPERIENCE

School Assistant (substitute)

SPRING 2025

Kilo School

- One-month substitute position supporting pupils in lessons, supervising breaks and guiding small groups.
- Learned how a calm and consistent adult can be a real support for a pupil during the school day.

Head Coach, City of Espoo free hobby programme

2024–2025

Leppävaaran Pyrintö ry, City of Espoo

- Head coach of four basketball groups run by LePy and the City of Espoo, for players aged 7–15.
- Learned to work with children with challenging behaviour; received positive feedback for keeping discipline without hurting the atmosphere.
- Independently planned and ran practices and developed the groups throughout the season.

Technician & Trainer

2023–2025

Otaniemi Upper Secondary School

- Trained younger students on the TEA13 course in lighting, sound and show control systems, and led the hands-on exercises.
- Held technical lead roles such as Lighting Lead and Project Manager, programming lighting consoles and planning productions.
- Learned to explain technical topics clearly to groups with very different skill levels.

Technician (freelance)

2022–2025

Freelance

- Lighting and sound technician at events and productions, including console programming and rigging.
- Developed independent technical troubleshooting and the ability to solve problems quickly on site.

Tutor

2024

Otaniemi Upper Secondary School

- Responsible for onboarding new students and group-building together with the tutor team.
- Gained experience planning and running larger events.

Camp Instructor, School's Out camp

SUMMERS 2023 & 2024

Leppävaaran Pyrintö ry

- Ran the children's daily programme and supervision together with other instructors.
- Learned to keep a large group of children on schedule and motivated.

Head of AV Team

2019–2022

Olari School

- Led the school AV team and was responsible for the technical delivery of school events.
- Learned to lead a larger team and divide responsibilities to match each member's skills.

Youth Leader (isonen)

2021

Olari Parish

- Led a small group and ran programme at a confirmation camp — my first experience leading a youth group independently.
